Engineering News-Record

Devoted to Civil Engineering and Contracting
McGraw-Hill Company, Inc.

1921 *Retrospect*

High Spots in Engineering Progress in Past Year:

Statistics of Construction Cost and Volume.

Engineering News-Record Construction Cost Index Number, 1913-1921.

Engineering News-Record Construction Volume Index Number, 1913-1921.

Spring Material Prices, 1913-1921.

Labor Rate Changes in 1921.

What 1921 Meant in Highway Construction.

1922 *Prospect*

What's Ahead in 1922:

Interviews with Leaders in Lumber, Steel, Cement, Asphalt and Contractors' Equipment.

Future Municipal Financing Viewed From Past Year's Bond Sales.

Concrete—In the Past and in the Future.

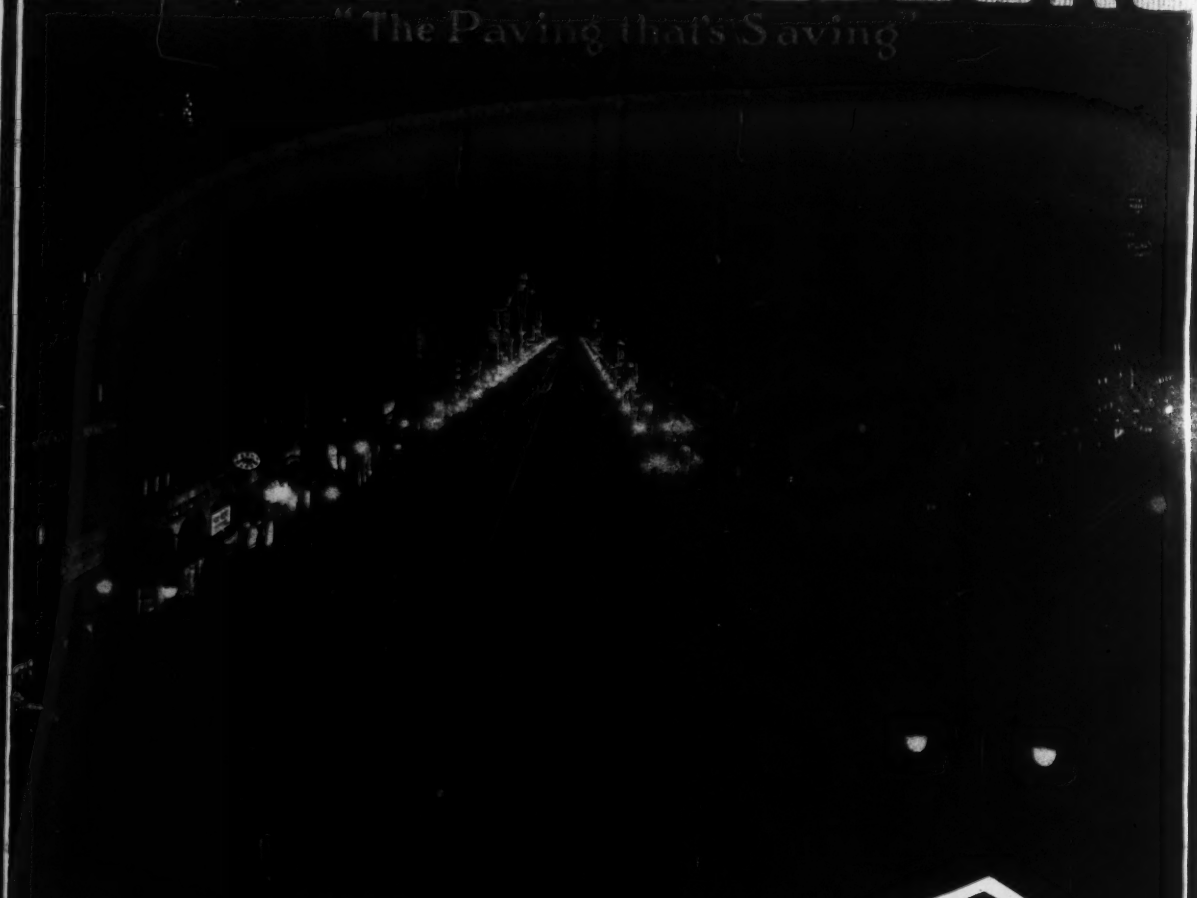
Bus Transportation as a Factor in Highways.

Hydro-Electric Work Under Way Tabulated.

The Prospects for Engineering in 1922.

KREOLITE LUG WOOD BLOCKS

"The Paving that's Saving"



THE greatest contributing factor, in determining the principal business thoroughfare of a city, is the character of the pavement used. A smooth, well constructed and well selected pavement attracts business and traffic like a magnet. The magnet, which attracted the business in the case of the accompanying photograph consisted of a KREOLITE Lug Wood Block Pavement.
